

"ALPEN" DRILL BITS - Austria

Concrete Natural Stone

Reinforced Concrete Granite

4 Solid Carbide Cutting Edge

Quick discharge

- Fast removal of drilling dust from the drilling head into the flute
- Less wear

Centering tip

- Spot drilling with pinpoint accuracy
- No Slipping

One-piece carbide tip with 4 solid carbide cutting edges

- Precise circular holes drill
- Wear-reduced geometry

NO. S 94-5 "ALPEN" F8 SDS-PLUS SHANK HAMMER DRILL BIT WITH 4 SOLID CARBIDE CUTTING EDGE

Range of Application:

Especially suitable for drilling in reinforced concrete, natural stone and brick-work. Problem-free drilling through reinforced steel, vibrationless running and fast, removal of drilling dust.

NO. S 94-6 "ALPEN" PROFI GRANITE DRILL BIT

Range of Application:

Special drill bits for rotary and percussion drilling of granite and marble. Extremely suitable for drilling all granite types with special drill bit geometry and carbide plate - even the hardest of granite.

Marble

Granite
